WORK EXPERIENCE

Techshoi   Jul 2022 - Present

Co-founder and Application Developer

Techshoi is a startup that builds great digital products. Techshoi has launched two products so far. Products are Digital Business Cards and Digital Music cards. And looking forward to launching some saas products.

- Building digital NFC business cards from scratch.
- Communicate with local vendors for collecting significant resources that helped our business to grow as an initial step.
- Build digital music cards from scratch and deal with local music bands.

Mobile Application Developer

NeedIn | Toronto, Canada |

- Developed the app with a team.
- Handled the state management using BLoC.
- Added CI/CD pipeline (Codemagic)
- Integrated Mapbox API to show the map.
- Implemented the design pixel perfectly in the app.

Technical Projects
